KEYNOTE SPEECH

Keynote Speech Venue

5/24 Wed

K1-1	10:30 – 11:10	**Latest Trends in Spectrum Policy**	Ministry of Internal Affairs and Communications Radio Department Telecommunications Bureau Director of Radio Department Motonobu Toyoshima	
K1-2	11:30 – 12:10	**The Right Place for Millimeter and Terahertz Wave Utilization in Beyond 5G/6G**	National Institute of Information and Communications Technology Beyond 5G R&D Promotion Unit Iwao Hosako	
K1-3	12:30 – 13:10	**Progress in Mobile Network (RAN/CORE) Virtualization, Intel's Next Steps in Virtualization**	Intel K.K. Masato Hotta	
K1-4	13:30 – 14:10	**On Beyond 5G/6G world, where communications will be integrated into everything**	KDDI Research, Inc. / KDDI CORPORATION EVP and Head of Advanced Technology Laboratories / VP Satoshi Konishi	
K1-5	14:30 – 15:10	**How Private 5G and Low Earth Satellites are changing business and communities** 🎧 Simultaneous Interpretation	Verizon Business Group Global Solutions Managing Director Duncan Kenwright	
K1-6	15:30 – 16:10	**Value creation and the future of LPWA that can only be achieved with Sigfox 0G network**	KYOCERA Communication Systems Co., Ltd. Wireless Solutions Division Deputy Division Manager Naoki Kawai	
K1-7	16:30 – 17:10	**Making the most of 5G investments & leveraging the new network** 🎧 Simultaneous Interpretation	Ericsson Advanced Technology APAC Advanced Technology Director Christopher Price	

5/25 Thu

K2-1	10:30 – 11:10	**Improving Society with Innovation! -Toward Beyond 5G / 6G Era-**	NEC Corporation Corporate EVP and President of Business Unit Executive Michio Kiuchi	
K2-2	11:30 – 12:10	**Platform toward Beyond 5G and 6G era**	National University Corporation, Kyoto University Graduate School of Informatics Professor Hiroshi Harada	
K2-3	12:30 – 13:10	**Socioeconomic system in 5G/Beyond 5G Era**	The University of Tokyo Faculty of Economics Professor Noriyuki Yanagawa	
K2-4	13:30 – 14:10	**Wireless Communications for AI x MBD x Digital Twin - Wireless Design and Implementation –**	MathWorks Japan Senior Application Engineer Akemi Tanaka	
K2-5	14:30 – 15:10	**How the Evolution of 5G Will Enable a Digitalized Society in the Near Future**	SoftBank Corp. Senior Vice President & CNO Tomohiro Sekiwa	
K2-6	15:30 – 16:10	**DOCOMO R&D's challenges toward the realization of a "Wellbeing" Society**	NTT DOCOMO, Inc. Executive Vice President Chief Technology Officer / Executive General Manager of R&D Innovation Division Naoki Tani	
K2-7	16:30 – 17:10	**Rakuten Mobile's 5G/B5G Strategy and Overseas Expansion of Telecommunication Platforms**	Rakuten Mobile, Inc. Executive Officer, Deputy CTO and Division Manager, Mobile Networks Division Hiroshi Takeshita	

5/26 Fri

K3-1	13:30 – 14:10	**The vision of future traffic safety possibilities built by AI sensing technology** 🎧 Consecutive Interpretation	Streamax Technology Co.,Ltd./Japan Streamax Technology PRESIDENT OF ASIA-PACIFIC REGION/ MANAGING DIRECTOR Tianxiang You	
K3-2	14:30 – 15:10	**Industrial DX and regional revitalization through private wireless networks such as local 5G/giga raku 5G**	NIPPON TELEGRAPH AND TELEPHONE EAST CORPORATION Norikazu Watanabe	
K3-3	15:30 – 16:10	**New Private Wireless Deployment with New Frequency Allocation as a Trigger**	Wireless LAN Business Promotion Association / 802.11ah Promotion Council / NTT Broadband Platform, inc. / Kanagawa Institute of Technology Representative Director, Chairperson/Member of Steering Comttee / Senior Vice President/Visiting Proffesor Hiroshi Hojo
